Declaration

Under REACH, the stainless steel products above are classified as **Articles**. These **Articles** do not require registration of the substances within them, since the substances are not intended to be released during use.

- The uncoated stainless steel does not contain any of the 253 substances of very high concern (SVHC) above 0.1% as defined and listed per Article 57 and 59 (ECHA candidate list) of the REACH Regulation and;
- no Annex XIV substances in the steel that would require authorisation and;
- stainless steel complies with the restrictions in Annex XVII of the REACH Regulation and;
- stainless steels that have been tested by [worldstainless](http://www.worldstainless.org) and the Acerinox group, complies with the nickel restriction of Entry 27 in the Annex.

This declaration is valid until the next update of the SVHC Candidate List by ECHA.
